

Product name:

Product code:

Batch:

Best before date:

Sodium Percarbonate

PR020

41HY25-440

06/2027

| General identification data |                                                                                                                         |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------|
| Parameter                   | Value                                                                                                                   |
| CAS No.                     | 15630-89-4                                                                                                              |
| EC number                   | 239-707-6                                                                                                               |
| Product color               | White                                                                                                                   |
| HS code                     | 28369990                                                                                                                |
| INCI                        | Sodium Percarbonate                                                                                                     |
| Grade                       | Technical Grade                                                                                                         |
| Origin of product           | Synthetic                                                                                                               |
| Storage conditions          | Store in the original container, Keep container tightly closed, Store in a dry and clean environment, Protect from heat |
| Odour                       | Odourless                                                                                                               |
| Appearance                  | Granules / Flakes / Pearls                                                                                              |

| Analytical parameters     |        |             |
|---------------------------|--------|-------------|
| Parameter                 | Value  | Range       |
| Active oxygen content (%) | 13,50  | > 13,0      |
| pH (3% solution)          | 10,48  | 10,0 - 11,0 |
| Bulk density (g/L)        | 975    | 900 - 1200  |
| Moisture (%)              | 0,59   | < 2,0       |
| Iron, Fe (ppm)            | 0,0012 | < 0,0015    |

All data and facts above are taken from the certificate provided by the manufacturer. This certificate confirms that the product meets all specified quality parameters and regulatory requirements.
